Accsys Technologies accepts no liability for any defect, damage or loss that may occur where such written instructions and guidelines are not adhered to.

ENDURING

quality Accoya® greenhouses , for years to come

Manufactured by

 **Green Bug Ltd**

ACCOYA®

delivers quality that lasts

Accoya turns everything you know about wood on its head.

Through a revolutionary scientific process called acetylation, it modifies wood to give it properties that exceed hardwoods, and other materials such as PVC and aluminium.

Here are some of the benefits of Accoya for your greenhouse:

Performance

Accoya wood joinery is highly stable and durable. It does not shrink, swell or distort and will open effortlessly all year round. Naturally insulating, and a 40% thermal conductivity improvement over hardwood, they'll help keep your home cosy and your energy bills down. A 50 year warranty also means you'll get to enjoy your windows or doors for a lifetime.

Finish

Accoya is the perfect material for coatings. Because of Accoya's amazing stability, coatings last longer than on other wood species, meaning lower maintenance in years to come.

About us

Green Bug Ltd manufacture bespoke greenhouses from their workshop in Wales and undertake installations all over the UK.

Foundations to finials - The big difference Green Bug do all the work required from designing your greenhouse if they haven't already built one you'd like, laying the foundations, building the walls and flooring before returning with your completed greenhouse and glass to finish the installation.

You only deal with one contractor / one person – Robin McGregor so you can have whatever you'd like without the complication of coordinating different trades.
